Subject index

A

- Abnormalities, fetal, maternal drug exposure and (Slone et al.), 648
- Acetylation in intestinal wall in hydralazine elimination (Reidenberg et al.), 970
- Acids, free fatty, effect of trimepranol on plasma levels of (Nedvidková and Felt), 881
- Addicts, heroin, methadone-naloxone in combination for treatment of (Parwatikar and Knowles), 941
- Adrenergic blockade, beta, effects of, with sotalol in chronic anxiety (Tyrer and Lader), 418
- Adriamycin in man, pharmacokinetics and metabolism of (Benjamin et al.), 592
- Adult livers, human fetal and, comparison of activities of drug-metabolizing enzymes in (Pelkonen et al.), 840
- Aluminum and magnesium hydroxides, effect of coadministration of, on absorption of anticoagulants in man (Ambre and Fischer), 231
- Ambiguity and abuse in twelve different concepts of 'Control' (Feinstein), 112
- American Society for Clinical Pharmacology and Therapeutics, abstracts of papers, 128
Clinical Pharmacological Methods: Phase I-II, 150
Post-Convention Seminar, 150
program for Seventy-fourth Annual Meeting, 123
- Aminophylline, use of, in myasthenia gravis (Jacobs et al.), 374
- Amniocentesis, possible damage to fetus caused by (Hirschhorn), 748
- Amobarbital, elimination kinetics of, in mothers and newborn infants (Krauer et al.), 442
glutethimide, and sulfinpyrazone—comparative drug elimination capacity in man (Kadar et al.), 552
- Amoxicillin therapy of infections (Vallejos et al.), 962
- Amphetamine metabolism in amphetamine psychosis (Ånggård et al.), 870
- Ampicillin and hetacillin pharmacokinetics in normal and anephric subjects (Jusko et al.), 90
- Analgesic efficacy of propoxyphene reduced by cigarette smoking (Boston Collaborative Drug Surveillance Program), 259
- Androgen control therapy, drug metabolism and, in prostatic cancer (Sotaniemi et al.), 413
- Angina pectoris, clinical value of halofenate to patients with (Aronow et al.), 366
practolol in patients with (Alderman et al.), 175
- Animal, intact, use of fetal cell culture as experimental system for predicting drug metabolism in (Nebert), 693
- Announcements, 151, 337, 616, 918
- Antibody production, humoral, effect on, studies of oxisuran in (Crew et al.), 1013
- Anticoagulant(s) activity, comparison of, of two preparations of purified heparin (Baltes et al.), 287
in man, absorption of, effect of coadministration of aluminum and magnesium hydroxides on (Ambre and Fischer), 231
- Antimicrobial, new topical, clinical safety of haloprogin (Hermann), 100
- Antipyrine, glutethimide, amobarbital, and sulfinpyrazone—comparative drug elimination capacity in man (Kadar et al.), 552
- Anxiety, chronic, effects of beta adrenergic blockade with (Tyrer and Lader), 418
- Arterial hypertension, long-term effects of oxprenolol in (Gysling and Regoli), 995
- Arthritis, rheumatoid; naproxen: novel approach to dose-finding efficacy trials in (Lussier et al.), 434
- Aspirin, fenoprofen and, effects of, on gastrointestinal microbleeding in man (Ridolfo et al.), 226
and sodium salicylate tablets in man, gastrointestinal blood loss from (Leonards and Levy), 62
- Asthma, new therapeutic drugs for (Wardell), 1022
- Asthmatic patients, theophylline kinetics in normal volunteers and (Mitenko and Ogilvie), 509

B

- B₁₂ deficiency in use of oral contraceptives (Fisch and Freedman), 245
- Benzo[*a*]pyrene hydroxylase, inducibility of, in human skin by polycyclic hydrocarbons (Alvares et al.), 30

- Beta blocker (trimepranol), effect of, on plasma levels of growth hormone, insulin, glucose, and free fatty acids (Nedvidková and Felt), 881
- Bioavailability of digoxin tablets (Steiness et al.), 949
- of potassium from slow-release tablet (Ben-Ishay and Engelman), 250
- Biostatistics, clinical. (*See* Clinical biostatistics)
- Blood esterases, human, perinatal development of (Ecobichon and Stephens), 41
- flow, muscle, effect of five per cent carbon dioxide on response of, to isoproterenol in man (Xanatalos et al.), 21
- loss, gastrointestinal, from aspirin and sodium salicylate tablets in man (Leonards and Levy), 62
- pressure, comparison of effect of guanadrel and guanethidine on (Hansson et al.), 204
- Books received, 152, 308, 478, 618, 919, 1052
- British usage and American awareness of some new therapeutic drugs (Wardell), 1022
- Brushite, effect on urinary activity product and formation product of (Pak), 209

C

- Cancer, prostatic, drug metabolism and androgen control therapy in (Sotaniemi et al.), 413
- use of guanazole in patients with (Gerber et al.), 264
- Carbamazepine, quantitative determination of, in plasma by mass fragmentography (Palmér et al.), 827
- Carbon dioxide, five per cent, effect of, on response of muscle blood flow to isoproterenol in man (Xanatalos et al.), 21
- Cardiopulmonary effects of diazepam (Rao et al.), 182
- Cardiovascular response to noxious stimuli in hypertensive patients, effects of practolol on (Traub et al.), 165
- Catecholamines, central, antagonism of alpha methyltyrosine suggestive of ethanol effect on (Ahlenius et al.), 586
- Cerebrospinal fluid of depressed patients before and during treatment with nortriptyline, indoleamine metabolites in (Asberg et al.), 277
- Chemicals, environmental, effects of drugs and, on steroid metabolism (Conney et al.), 727
- Chlorothiazide in man, effect of colestipol on gastrointestinal absorption of (Kauffman and Azarnoff), 886
- Chlorpromazine, plasma, in psychiatric patients, effects of mode of management on (Rivera-Calimlim), 978
- Cholesterol levels, halofenate and, in patients with coronary artery disease (Aronow et al.), 358
- Chromosome damage, deleterious effects on fetus as expressed by (Hirschhorn), 748
- Cigarette smokers, decreased clinical efficacy of propoxyphene in (Boston Collaborative Drug Surveillance Program), 259
- Circadian rhythm(s) of drug effectiveness and toxicity (Moore Ede), 925
- of therapeutic effectiveness of oxymetholone in paraplegic patients (Moore Ede and Burr), 448
- Clinical biostatistics (Feinstein)
- XIX. Ambiguity and abuse in the twelve different concepts of 'Control,' 112
- XX. The epidemiologic trohoc, the ablative risk ratio, and 'retrospective' research, 291
- XXI. A primer of concepts, phrases, and procedures in the statistical analysis of multiple variables, 462
- XXII. The role of randomization in sampling, testing, allocation, and credulous idolatry (Part 1), 601
- XXIII. The role of randomization in sampling, testing, allocation, and credulous idolatry (Part 2) (Feinstein), 898
- XXIV. The role of randomization in sampling, testing, allocation, and credulous idolatry (conclusion), 1035
- Clonidine, intravenous, in hypertensive patients (Mroczek et al.), 847
- Clotting times, results of double-blind, balanced crossover trial of 2 commercial brands of sodium heparin on (Baltes et al.), 287
- Colestipol, effect of, on gastrointestinal absorption of chlorothiazide in man (Kauffman and Azarnoff), 886
- Colitis, ulcerative, metabolism of salicylazosulfapyridine in healthy subjects and in patients with (Schröder et al.), 802
- Concluding remarks, Symposium on Drugs and the Unborn Child (Fuchs), 767
- Contraceptives, oral, effect of, on thromboelastogram (Fisch et al.), 238
- and red blood cell (Fisch and Freedman), 245
- Contractility, heart muscle, effect of glucagon on (Hammer et al.), 56
- Correspondence, 916
- Corticosteroid, urinary, and diphenylhydantoin metabolite patterns in neonates exposed to anticonvulsant drugs in utero (Reynolds and Mirkkin), 891

- Corticotropin, oxtriphylline and, combination of, in myasthenia gravis (Brumlik et al.), 380
- Cortisol, plasma, spironolactone and (Dumlao et al.), 992
- Cyclic adenosine monophosphate production in human platelets, norepinephrine effects on (Murphy et al.), 810

D

- d*-Amphetamine, effect on guanethidine hypertension (Ober and Wang), 190
- Daunorubicin, adriamycin kinetics and spectrums of clinical effectiveness structurally similar to (Benjamin et al.), 592
- Decarboxylase inhibition, systemic, potentiation of levodopa stimulation of human growth hormone by (Mars and Genuth), 390
- Delta-9-tetrahydrocannabinol, delta-8- and (Hollister and Gillespie), 353
- orally administered, pharmacology of (Perez-Reyes et al.), 48
- Deoxythioguanosine and thioguanine (LePage and Gottlieb), 966
- Depressed patients before and during treatment with nortriptyline, indoleamine metabolites in cerebrospinal fluid of (Asberg et al.), 277
- Development of fetal enzymes, effects of hormones on (Greengard), 721
- hormonal effects on (Jost), 714
- Developmental pharmacology, research goals in (Mirkin), 762
- Diabetes mellitus, pregnancy complicated by, treatments of (Chez and Fleischman), 754
- Diagnostic implications of drug-fetus interactions (Hirschhorn), 748
- Diazepam, cardiopulmonary effects of (Rao et al.), 182
- Diazoxide, disposition of, in children (Pruitt et al.), 73
- Digoxin tablets, bioavailability of (Steiness et al.), 949
- Diphenhydramine, inhibition of gastrointestinal absorption of p-aminosalicylate (PAS) in rats and humans by (Lavigne and Marchand), 404
- Diphenylhydantoin levels, plasma, after loading and maintenance doses (Wilder et al.), 797
- metabolite patterns in neonates exposed to anticonvulsant drugs in utero, urinary corticosteroid and (Reynolds and Mirkin), 891
- and 5-(*p*-hydroxyphenyl)-5-phenylhydantoin (Bochner et al.), 791
- Diphenylhydantoin—Cont'd
- side effects and serum albumin levels (Boston Collaborative Drug Surveillance Program), 529
- toxicity, pharmacokinetic study of patient with (Atkinson and Shaw), 521
- Dose-dependent enzyme induction (Breckenridge et al.), 514
- Drugs(s) discovery—background and foreground (Tishler) (Editorial), 479
- effectiveness and toxicity, circadian rhythms of (Moore Ede), 925
- and environmental chemicals, effects of, on steroid metabolism (Conney et al.), 727
- failed and flawed; frozen resource (Modell) (Editorial), 771
- and fetal metabolism (panel discussion), 700
- fetus interactions, diagnostic implications of (Hirschhorn), 748
- for a Future (Modell), 153
- ingested by pregnant women (Hill), 654
- interactions with guanethidine (Ober and Wang), 190
- labels, new ideas about (Hollister) (Editorial), 309
- metabolism in intact animal, use of fetal cell culture as experimental system for predicting (Nebert), 693
- metabolizing enzymes, comparison of activities of, in human fetal and adult livers (Pelkonen et al.), 840
- new, differences in attitudes to (Wardell), 1022
- research, future—drugs of future (Gross), 1

E

- Edrophonium, failure of, in muscle preparations from myasthenia patients (Jacobs et al.), 374
- Effectiveness, drug, and toxicity, circadian rhythms of (Moore Ede), 925
- Electrocardiographic monitoring, continuous, during marihuana intoxication (Roth et al.), 533
- Environmental chemicals, effects of drugs and, on steroid metabolism (Conney et al.), 727
- Enzyme(s), drug-metabolizing, comparison of activities of, in human fetal and adult livers (Pelkonen et al.), 840
- fetal, effects of hormones on development of (Greengard), 721
- induction, dose-dependent (Breckenridge et al.), 514
- Epidemiologic *trihoc*, ablative risk ratio, and 'retrospective' research (Clinical biostatistics) (Feinstein), 291

- Epidemiology of drugs taken by pregnant women (Forfar and Nelson), 632
- Epileptic patients, use of diphenylhydantoin and 5-(p-hydroxyphenyl)-5-phenylhydantoin in treatment of (Bochner et al.), 791
- Erythroblastosis fetalis, treatments of (Chez and Fleischman), 754
- Esproquin, oral, positive inotropic effect of, in normal subjects (Koltelanski et al.), 427
- Esterases, human blood, perinatal development of (Ecobichon and Stephens), 41
- Estrogen, progestin and, in monthly dosage, ether derivatives of (Danowski et al.), 455
- Ethanol in man, acute respiratory effects of (Johnstone and Reier), 501
- Ethanol-induced stimulation and euphoria in man, antagonism by alpha methyltyrosine of (Ahlenius et al.), 586
- Ether derivatives of progestin and estrogen in monthly dosage (Danowski et al.), 455
- Euphoria in man, ethanol-induced stimulation and, antagonism by alpha methyltyrosine of (Ahlenius et al.), 586
- Exercise, effects of heat and, on elimination of pralidoxime in man (Swartz and Sidell), 83
- performance in coronary heart disease, effect of halofenate on (Aronow et al.), 366
- improvement in, with practolol (Alderman et al.), 175

F

- FDA, role of, in regulation of drugs (Hollister) (Editorial), 921
- Fecal marker in balance studies, tracer microspheres as (Carmichael et al.), 987
- Fenopropfen and aspirin, effects of, on gastrointestinal microbleeding in man (Ridolfo et al.), 226
- Fetal abnormalities, maternal drug exposure and (Slone et al.), 648
- and adult livers, human, comparison of activities of drug-metabolizing enzymes in (Pelkonen et al.), 840
- cell culture, use of, as experimental system for predicting drug metabolism in intact animal (Nebert), 693
- development, hormonal effects on (Jost), 714
- distribution, maternal and, of drugs in pregnancy (Mirkin), 643
- drug metabolism, active products of (Gillette et al.), 680
- enzymes, effects of hormones on development of (Greengard), 721
- Fetal—Cont'd
- liver microsomes, human, formation of 16,17-trans-glycolic metabolite from 16-dehydro-androgen in (Rane and Gustafsson), 833
- metabolism, drugs and (panel discussion), 700 (Rane et al.), 666
- hormones and (panel discussion), 742
- steroid metabolism, changes in, with age (Villev), 705
- therapeutics—challenges and responsibilities (Chez), 754
- tissues, toxic effects of drugs on (Sereni), 662
- Fetus, deleterious effects on (Hirschhorn), 748
- drugs that may affect (Forfar and Nelson), 632
- Folate and B₁₂ deficiency in use of oral contraceptives (Fisch and Freedman), 245
- Fragmentography, mass, quantitative determination of carbamazepine in plasma by (Palmér et al.), 827
- Fusaric acid in man, pharmacology of (Matta and Wooten), 541

G

- Gastric ulcer, new therapeutic drugs for (Wardell), 1022
- Gastrointestinal absorption of chlorothiazide in man, effect of colestipol on (Kauffman and Azarnoff), 886
- blood loss from aspirin and sodium salicylate tablets in man (Leonards and Levy), 62
- microbleeding in man, effects of fenopropfen and aspirin on (Ridolfo et al.), 226
- Gentamicin, tobramycin and, comparative pharmacokinetics of (Regamey et al.), 396
- study of, with special reference to anti-Pseudomonas activity (Klastersky et al.), 104
- tritiated, elimination of, in normal human subjects and in patients with severely impaired renal function (Wilson et al.), 815
- Glucagon, effect of, on heart muscle contractility (Hammer et al.), 56
- of trimepranol on plasma levels of (Nedvidková and Felt), 881
- Glutethimide, amobarbital, antipyrine, and sulfinpyrazone—comparative drug elimination capacity in man (Kadar et al.), 552
- Glycinexylidide, identification of, in patients treated with intravenous lidocaine (Strong et al.), 67
- Great Britain, introduction of new therapeutic drugs in United States and; international comparison (Wardell), 773

- Growth hormone, effect of trimepranol on plasma levels of (Nedvídková and Felt), 881
Guanadrel and guanethidine, comparison of (Hansson et al.), 204
Guanazole, pharmacokinetics of, in man (Gerber et al.), 264
therapy, intermittent, in adult acute leukemia (Hewlett et al.), 271
Guanethidine, drug interactions with (Ober and Wang), 190
guanadrel and, comparison of (Hansson et al.), 204

H

- Halofenate, effect of, on exercise performance in coronary heart disease (Aronow et al.), 366
on serum lipids (Aronow et al.), 358
uric acid (Aronow et al.), 371
studies of uricosuric action of (Ravenscroft et al.), 547
Haloprogyn, clinical safety of, new topical antimicrobial (Hermann), 100
Heart disease, coronary, effect of halofenate on exercise performance in (Aronow et al.), 366
muscle contractility, effect of glucagon on (Hammer et al.), 56
Heat and exercise, effects of, on elimination of pralidoxime in man (Swartz and Sidell), 83
Heparin, purified, comparison of anticoagulant activity of two preparations of (Baltes et al.), 287
Hepatic banding, saturable, as basis of nonlinear kinetics of propranolol (Evans and Shand), 487
metabolism and injection site blood flow, effect of, after thiopental administration (Saidman and Eger), 12
Heroin addicts, methadone-naloxone in combination for treatment of (Parwatikar and Knowles), 941
Hetacillin pharmacokinetics, ampicillin and, in normal and anephric subjects (Jusko et al.), 90
Hormonal effects on fetal development (Jost), 714
Hormone(s), effects of, on development of fetal enzymes (Greengard), 721
and fetal metabolism (panel discussion), 742
human growth, potentiation of levodopa stimulation of, by systemic decarboxylase inhibition (Mars and Genuth), 390
Hydralazine elimination in man (Reidenberg et al.), 970
Hydrocarbons, polycyclic, inducibility of benzo[*a*]pyrene hydroxylase in human skin by (Alvares et al.), 30

- Hydrochlorothiazide therapy in nephrolithiasis (Pak), 209
Hydromorphone in man, respiratory effects of (Brown et al.), 331
Hydroxylase, benzo[*a*]pyrene, inducibility of, in human skin by polycyclic hydrocarbons (Alvares et al.), 30
Hypertension, arterial, long-term effects of oxprenolol in (Cysling and Regoli), 995
new therapeutic drugs for (Wardell), 1022
Hypertensive patients, effects of practolol on pressor responses to noxious stimuli in (Traub et al.), 165
intravenous clonidine in (Mroczek et al.), 847
response to propranolol in patient treated with methylidopa (Nies and Shand), 823
Hyperthyroidism, effect of pindolol, beta receptor antagonist in (Schelling et al.), 158
Hypnotic, mebutamate as (Morgan et al.), 1001
Hypoalbuminemia, adverse reactions to DPH in patients with (Boston Collaborative Drug Surveillance Program), 529
Hypoglycemia, pharmacokinetic studies in children with (Pruitt et al.), 73
Hypolipidemic drug halofenate, uricosuric action of (Ravenscroft et al.), 547

I

- Idolatry, credulous, role of randomization in sampling, testing, allocation, and (conclusion) (Feinstein) (Clinical biostatistics), 1035
Immunosuppressive drug, differential, oxisuran, studies on metabolism in man of (Crew et al.), 1013
Indoleamine metabolites in cerebrospinal fluid of depressed patients before and during treatment with nortriptyline (Asberg et al.), 277
Infants, newborn, elimination kinetics of amobarbital in mothers and (Krauer et al.), 442
Infections, amoxicillin therapy of (Vallejos et al.), 962
Injection site blood flow, effect of hepatic metabolism and, after thiopental administration (Saidman and Eger), 12
Innocence, time for loss of (Hollister) (Editorial), 921
Insulin, effect of trimepranol on plasma levels of (Nedvídková and Felt), 881
Intoxication, marihuana, continuous electrocardiographic monitoring during (Roth et al.), 533
Introductory remarks, Symposium on Drugs and the Unborn Child (McCrory), 621

- Isoquinoline derivative (esproquin), some suggestive cardiovascular effects of (Kotelanski et al.), 427
- Isosorbide in man, pharmacodynamics and pharmacokinetics of (Nodine et al.), 196

K

- Keynote address, Symposium on Drugs and the Unborn Child (Hellman), 625
- Kinetic(s) as basis of case of diphenylhydantoin toxicity (Atkinson and Shaw), 521
- elimination, of amobarbital in mothers and newborn infants (Krauer et al.), 442
- metabolic, and clinical pharmacologic observations; methaqualone (Brown and Goenechea), 314
- of warfarin absorption in man (Breckenridge and Orme), 955

L

- Leukemia, adult acute, intermittent guanazole therapy in (Hewlett et al.), 271
- Levodopa stimulation of human growth hormone by systemic decarboxylase inhibition, potentiation of (Mars and Genuth), 390
- therapy in Parkinson's disease, metabolic patterns and clinical response to (Messiha and Knopp), 565
- Lidocaine, intravenous, identification of glycine-xylylide in patients treated with (Strong et al.), 67
- Lipidolytic action of halofenate (Ravenscroft et al.), 547
- Lithium, inhibition by, of prostaglandin E₁ and norepinephrine effects on cyclic adenosine monophosphate production in human platelets (Murphy et al.), 810
- plasma renin response to, in psychiatric patients (Shopsin et al.), 561
- Liver(s) human fetal and adult, comparison of activities of drug-metabolizing enzymes in (Pelkonen et al.), 840
- microsomes, human fetal, formation of 16,17-trans-glycolic metabolite from 16-dehydro-androgen in (Rane and Gustafsson), 833

M

- Magnesium hydroxides, aluminum and, effect of coadministration of, on absorption of anticoagulants in man (Ambre and Fischer), 231
- Marihuana, impairment of performance with low doses of (Evans et al.), 936
- intoxication, continuous electrocardiographic monitoring during (Roth et al.), 533

- Maternal drug exposure and fetal abnormalities (Slone et al.), 648
- and fetal distribution of drugs in pregnancy (Mirkin), 643
- Mebutamate as hypnotic (Morgan et al.), 1001
- Menopausal subjects, long-acting estrogen-progestin combination in (Danowski et al.), 455
- Mepivacaine, clearance and metabolism of, in human neonate (Meffin et al.), 218
- Metabolic, kinetic, and clinical pharmacologic observations; methaqualone (Brown and Goenechea), 314
- mechanism, acetylation in intestinal wall genetically related (Reidenberg et al.), 970
- patterns and clinical response to levodopa therapy in Parkinson's disease (Messiha and Knopp), 565
- Metabolism, amphetamine, in amphetamine psychosis (Ånggård et al.), 870
- clearance and, of mepivacaine in human neonate (Meffin et al.), 218
- drug, and androgen control therapy in prostatic cancer (Sotaniemi et al.), 413
- in intact animal, use of fetal cell culture as experimental system for predicting (Nebert), 693
- by placenta (Juchau et al.), 673
- fetal, drug(s) and (panel discussion), 700
- active products of (Gillette et al.), 680
- (Rane et al.), 666
- hormones and (panel discussion), 742
- steroid, changes in, with age (Villem), 705
- hepatic, and injection site blood flow, effect of, after thiopental administration (Saidman and Eger), 12
- in man of oxisuran, studies on (Crew et al.), 1013
- oxandrolone disposition and, in man (Karim et al.), 862
- pharmacokinetics and, of adriamycin in man (Benjamin et al.), 592
- of salicylazosulfapyridine in healthy subjects and in patients with ulcerative colitis (Schröder et al.), 802
- saturable, as basis of nonlinear kinetics of propranolol (Evans and Shand), 487
- steroid, effects of drugs and environmental chemicals on (Conney et al.), 727
- Metabolite(s), indoleamine, in cerebrospinal fluid of depressed patients before and during treatment with nortriptyline (Asberg et al.), 277
- patterns, diphenylhydantoin, in neonates exposed to anticonvulsant drugs in utero, urinary corticosteroid and (Reynolds and Mirkin), 891

Metabolite(s)—Cont'd

- 16,17-trans-glycolic, formation of, from 16-dehydro-androgen in human fetal liver microsomes (Rane and Gustafsson), 833
- Methadone binding to human plasma proteins (Olsen), 338
- naloxone in combination for treatment of heroin addicts (Parwatikar and Knowles), 941
- Methaqualone: metabolic, kinetic, and clinical pharmacological observations (Brown and Goenechea), 314
- Methotrexate, pharmacokinetics of (Huffman et al.), 572
- Methyl dopa, effect on guanethidine hypertension (Ober and Wang), 190
- hypertensive response to propranolol in patient treated with (Nies and Shand), 823
- 3-O-, parkinsonism treated with (Calne et al.), 386
- Methyltyrosine, alpha, antagonism by, of ethanol-induced stimulation and euphoria in man (Ahlenius et al.), 586
- Microbleeding, gastrointestinal, in man, effects of fenoprofen and aspirin on (Ridolfo et al.), 226
- Microsomes, human fetal liver, formation of 16,17-trans-glycolic metabolite from 16-dehydro-androgen in (Rane and Gustafsson), 833
- Microspheres, tracer, as fecal marker in balance studies (Carmichael et al.), 987
- Minocycline, pharmacokinetic studies on, in man (Macdonald et al.), 852
- Morphine and hydromorphone, comparisons of (Brown et al.), 331
- Muscle blood flow, effect of five per cent carbon dioxide on response of, to isoproterenol in man (Xanatos et al.), 21
- Myasthenia gravis, theophylline compounds and
 - I. (Jacobs et al.), 374
 - II. (Brumlik et al.), 380

N

- Naproxen; novel approach to dose-finding efficacy trials in rheumatoid arthritis (Lussier et al.), 434
- Neonate, human, clearance and metabolism of mepivacaine in (Meffin et al.), 218
- Nephrolithiasis, hydrochlorothiazide therapy in (Pak), 209
- Norepinephrine effects on cyclic adenosine monophosphate production in human platelets (Murphy et al.), 810
- Nortriptyline, indoleamine metabolites in cerebrospinal fluid of depressed patients before and during treatment with (Asberg et al.), 277

O

- Oliguria and polyuria in diphenylhydantoin therapy (Bochner et al.), 791
- Osteoporosis, method of preventing, in use of oxymetholone in paraplegic patients (Moore Ede and Burr), 448
- Oxandrolone disposition and metabolism in man (Karim et al.), 862
- Oxisuran, studies on metabolism in man of (Crew et al.), 1013
- Oxprenolol: long-term effects in arterial hypertension (Gysling and Regoli), 995
- Oxtriphylline and corticotropin, combination of, in myasthenia gravis (Brumlik et al.), 380
- Oxymetholone, circadian rhythm of therapeutic effectiveness of, in paraplegic patients (Moore Ede and Burr), 448

P

- p-Aminosalicylate (PAS), inhibition of gastrointestinal absorption of, in rats and humans by diphenhydramine (Lavigne and Marchand), 404
- Paraplegic patients, circadian rhythm of therapeutic effectiveness of oxymetholone in (Moore Ede and Burr), 448
- Parkinsonism treated with 3-O-methyl dopa (Calne et al.), 386
- Parkinson's disease, metabolic patterns and clinical response to levodopa therapy in (Messiha and Knopp), 565
- Performance, impairment of, with low doses of marihuana (Evans et al.), 936
- Pharmacodynamics and pharmacokinetics of isosorbide in man (Nodine et al.), 196
- Pharmacokinetic(s), ampicillin and hetacillin, in normal and anephric subjects (Jusko et al.), 90
- comparative, of tobramycin and gentamicin (Regamey et al.), 396
- of guanazole in man (Gerber et al.), 264
- of intravenous theophylline (Mitenko and Ogilvie), 509
- and metabolism of adriamycin in man (Benjamin et al.), 592
- of methotrexate (Huffman et al.), 572
- pharmacodynamics and, of isosorbide in man (Nodine et al.), 196
- study(ies) on minocycline in man (Macdonald et al.), 852
- of patient with diphenylhydantoin toxicity (Atkinson and Shaw), 521
- of practolol, a beta adrenergic antagonist, in man (Bodem and Chidsey), 26
- Pharmacology, developmental, research goals in (Mirkin), 762
- of fusaric acid in man (Matta and Wooten), 541

Pharmacology—Cont'd

- of orally administered Δ^9 -tetrahydrocannabinol (Perez-Reyes et al.), 48
- 5-(p-Hydroxyphenyl)-5-phenylhydantoin, diphenylhydantoin and, renal handling of (Bochner et al.), 791
- Pindolol, beta receptor antagonist, effect of, in hyperthyroidism (Schelling et al.), 158
- Placenta, drug metabolism by (Juchau et al.), 673
- Plasma chlorpromazine in psychiatric patients, effects of mode of management on (Rivera-Calimlim), 978
- cortisol, spironolactone and (Dumlaio et al.), 992
- diphenylhydantoin levels after loading and maintenance doses (Wilder et al.), 797
- dopamine- β -hydroxylase, fusaric acid as effective, reversible inhibitor of (Matta and Wooten), 541
- drug binding in man, independent variation in steady-state circulating drug concentrations and half-life as result of (Evans and Shand), 494
- levels, correlation of dissolution rate and absorption of digoxin (Steiness et al.), 949
- of growth hormone, insulin, glucose, and free fatty acids, effect of trimepranol on plasma levels of (Nedvídková and Felt), 881
- proteins, methadone binding to (Olsen), 338
- quantitative determination of carbamazepine in, by mass fragmentography (Palmér et al.), 827
- renin response to lithium in psychiatric patients (Shopsin et al.), 561
- and urine quinine levels, human, following tablets, capsules, and intravenous infusion (Hall et al.), 580
- Platelets, human, cyclic adenosine monophosphate production in (Murphy et al.), 810
- Polyuria and oliguria in diphenylhydantoin therapy (Bochner et al.), 791
- Potassium, bioavailability of, from slow-release tablet (Ben-Ishay and Engelman), 250
- Practolol, effects of, on pressor responses to noxious stimuli in hypertensive patients (Traub et al.), 165
- in patients with angina pectoris (Alderman et al.), 175
- pharmacokinetic studies of, in man (Bodem and Chidsey), 26
- Pralidoxime, elimination of, in man, effects of heat and exercise on (Swartz and Sidell), 83
- Pregnancy, maternal and fetal distribution of drugs in (Mirkin), 643
- Pregnant women, drugs ingested by (Hill), 654

Pregnant women—Cont'd

- epidemiology of drugs taken by (Forfar and Nelson), 632
- Prisoners, use of, in drug testing (Hollister) (Editorial), 921
- Progesterin and estrogen in monthly dosage, ether derivatives of (Danowski et al.), 455
- Program, Symposium on Drugs and the Unborn Child, March 15 and 16, 1973, 619
- Propoxyphene, decreased clinical efficacy of, in cigarette smokers (Boston Collaborative Drug Surveillance Program), 259
- Propranolol, disposition of (Evans and Shand), 487, 494
- hypertensive response to, in patient treated with methyl dopa (Nies and Shand), 823
- Prostaglandin E_1 , inhibition by lithium of, and norepinephrine effects on cyclic adenosine monophosphate production in human platelets (Murphy et al.), 810
- Prostatic cancer, drug metabolism and androgen control therapy in (Sotaniemi et al.), 413
- Proteins, human plasma, methadone binding to (Olsen), 338
- Pseudomonas, anti-, activity, comparative study of tobramycin and gentamicin with special reference to (Klastersky et al.), 104
- Psychiatric patients, effects of mode of management on plasma chlorpromazine in (Rivera-Calimlim et al.), 978
- plasma renin response to lithium in (Shopsin et al.), 561
- Psychosis, amphetamine, amphetamine metabolism in (Ånggård et al.), 870
- Pyelonephritis, new therapeutic drugs for (Wardell), 1022

Q

- Quinine levels, human plasma and urine, following tablets, capsules, and intravenous infusion (Hall et al.), 580

R

- Randomization, role of, in sampling, testing, allocation, and credulous idolatry (conclusion) (Feinstein) (Clinical biostatistics), 1035
- Renal failure, reserpine in (Zsotér et al.), 325
- function, severely impaired, elimination of triitated gentamicin in normal human subjects and in patients with (Wilson et al.), 815
- handling of diphenylhydantoin and 5-(p-hydroxyphenyl)-5-phenylhydantoin (Bochner et al.), 791

- Research, biomedical, funds for (Hollister) (Editorial), 921
 drug, future—drugs of future (Gross), 1
 goals in developmental pharmacology (Mirkin), 762
 Reserpine in renal failure, excretion and metabolism of (Zsotér et al.), 325
 Respiratory effects, acute, of ethanol in man (Johnstone and Reier), 501
 hydromorphone in man (Brown et al.), 331
 'Retrospective' research, epidemiologic trohoc, ablative risk ratio, and (Feinstein) (Clinical biostatistics), 291
 Rheumatoid arthritis; naproxen: novel approach to dose-finding efficacy trials in (Lussier et al.), 434

S

- Salicylazosulfapyridine, metabolism of, in healthy subjects and in patients with ulcerative colitis (Schröder et al.), 802
 Secobarbital and mebutamate, distinguishing from placebo (Morgan et al.), 1001
 Seizure control, diphenylhydantoin for (Wilder et al.), 797
 Serum albumin levels, diphenylhydantoin side effects and (Boston Collaborative Drug Surveillance Program), 529
 concentrations, toxic, prevention of tritiated gentamicin to (Wilson et al.), 815
 lipids, effect of halofenate on (Aronow et al.), 358
 uric acid, effect of halofenate on (Aronow et al.), 371
 Slow-K (slow-release KCl tablet) (Ben-Ishay and Engelman), 250
 Sodium salicylate tablets in man, aspirin and, gastrointestinal blood loss from (Leonards and Levy), 62
 Sotalol in chronic anxiety, effects of beta adrenergic blockade with (Tyrer and Lader), 418
 Spironolactone and plasma cortisol (Dumlao et al.), 992
 Staphylococci, tetracycline-resistant, significant activity of minocycline against (Macdonald et al.), 852
 Steroid metabolism, effects of drugs and environmental chemicals on (Conney et al.), 727
 fetal, changes in, with age (Vilée), 705
 new anabolic, kinetics and metabolism of (Karim et al.), 862
 Sulfipyrazone, glutethimide, amobarbital, and—comparative drug elimination capacity in man (Kadar et al.), 552

T

- Testing, sampling, allocation, and credulous idolatry, role of randomization in (Part 2) (Clinical biostatistics) (Feinstein), 898
 Tetracycline series, minocycline new member of (Macdonald et al.), 852
 Tetrahydrocannabinol, delta-8- and delta-9- (Hollister and Gillespie), 353
 delta-9-, orally administered, effects of, in man (Hosko et al.), 344
 Thalidomide, lesson of (Stern), 660
 Theophylline compounds and myasthenia gravis.
 I. In vitro studies (Jacobs et al.), 374
 II. Clinical report of nine cases (Brumlik et al.), 380
 intravenous, pharmacokinetics of (Mitenko and Ogilvie), 509
 Therapeutic drugs, new, introduction of, in United States and Great Britain (Wardell), 773
 Thioguanine and deoxythioguanosine (LePage and Gottlieb), 966
 Thiopental, uptake and distribution of, after oral, rectal, and intramuscular administration (Saidman and Eger), 12
 Thromboelastogram, effect of oral contraceptives on (Fisch et al.), 238
 Tobramycin and gentamicin, comparative pharmacokinetics of (Regamey et al.), 396
 study of, with special reference to anti-Pseudomonas activity (Klastersky et al.), 104
 Toxic effects of drugs on fetal tissues (Sereni), 662
 serum concentrations, prevention of cumulation of tritiated gentamicin to (Wilson et al.), 815
 Toxicity, drug effectiveness and, circadian rhythms of (Moore Ede), 925
 high incidence of, on low "maintenance" doses of methotrexate (Huffman et al.), 572
 occurrence of, in diphenylhydantoin therapy (Wilder et al.), 797
 Trihexyphenidyl, interaction with chlorpromazine (Rivera-Calimlim et al.), 978
 Trimepranol, effect of, on plasma levels of growth hormone, insulin, glucose, and free fatty acids (Nedvidková and Felt), 881

U

- Ulcerative colitis, metabolism of salicylazosulfapyridine in healthy subjects and in patients with (Schröder et al.), 802
 United States and Great Britain, introduction of new therapeutic drugs in; international comparison (Wardell), 773

Uric acid, serum, effect of halofenate on (Aronow et al.), 371
 Uricosuric action of hypolipidemic drug halofenate, studies of (Ravenscroft et al.), 547
 Urinary corticosteroid and diphenylhydantoin metabolite patterns in neonates exposed to anticonvulsant drugs in utero (Reynolds and Mirkin), 891

Urine quinine levels, human plasma and, following tablets, capsules, and intravenous infusion (Hall et al.), 580

W

Warfarin absorption in man, kinetics of (Breckenridge and Orme), 955
 Welcome, Symposium on Drugs and the Unborn Child (Apgar), 623
